

Genetic Counseling Patient Information

Your healthcare provider has referred you for genetic counseling for Tempus xG Hereditary Cancer Testing – Powered by GeneDx.

Your specimen ID number (if applicable) is: _____

Note: Your healthcare provider must send a genetic counseling referral to **1-800-893-0276** or **support@tempus.com**.

Scheduling an Appointment:

GeneDx will contact you by email and/or telephone to schedule an appointment. You may contact GeneDx at **833-436-3832** with any questions.

At the time of your appointment, your genetic counselor will discuss your medical and family history and genetic testing. Please be sure that you are in a quiet place without distractions. You are encouraged to include a family member or friend in the discussion if you are comfortable sharing your medical and genetic information with them.

What to Expect at the Appointment:

- Appointments are held remotely, by phone or secure videoconferencing
- Review of personal and family medical history
- Discussion of genetic testing
- Education about inheritance, testing, management, prevention, resources and research
- Opportunity to ask any questions
- Summary of the appointment will be sent to your physician
