Will the course of treatment change depending upon the results of the test? Yes No STAT TEST: Date results needed (if known): _____
Was genetic counseling completed? Yes No Unknown Date Genetic Counseling was Performed: _____

Patient Signature (I agree to terms below): _____ **Date:** _____

Medical Professional Signature (I agree to terms below): _____ **Date:** _____

TERMS AND CONDITIONS

Patient Acknowledgement: I acknowledge that the information provided by me is true and correct. For direct insurance billing: I authorize my insurance benefits to be paid directly to Ambry Genetics Corporation (Ambry), authorize Ambry to release medical information concerning my testing to my insurer, to be my designated representative for purposes of appealing any denial of benefits as needed and to request additional medical records for this purpose. I understand that I am responsible for sending Ambry money received from my health insurance company.

For NY residents: By checking this box, I agree that Ambry Genetics will retain my sample for 6 months after the testing above has been completed. By not checking this box, I understand that under New York State law, Ambry Genetics must discard my sample after the longer of (a) testing completion and (b) 60 days after the Date of Collection above.

Medical Professional: Confirmation of Informed Consent, Pre-test Genetic Counseling, and Medical Necessity for Genetic Testing
 The undersigned person (or representative thereof) ensures he/she is a licensed medical professional authorized to order genetic testing and confirms that the patient has given appropriate consent. I confirm that testing is medically necessary and that test results may impact medical management for the patient. I agree to allow Ambry Genetics to facilitate the provision of pre-test genetic counseling services by a third-party service, as required by the patient's insurance provider. Furthermore, all information on this TRF is true to the best of my knowledge. My signature applies to the attached letter of medical necessity.

Test Requisition for Tissue Culturing (Oncology)

INSTRUCTIONS FOR SUBMITTING SAMPLE TO BAYLOR GENETICS :

KIT REQUEST

1. 7-10 days prior to patient's procedure, please place an order for a Baylor Genetics' CVS Transport Media Kit through their website at baylorgenetics.com/supplies.
2. On step 3 select "custom options". On step 4 enter TC 8814 at the top and enter the desired qty of 15ml Conical Tube(s) CVS Transport Media.
3. For any questions, please contact Baylor Genetics' Client Services at 1-800-411-4363 or email help@baylorgenetics.com.
4. Upon receipt of the online kit request, Baylor Genetics will ship a CVS Transport Media Kit to the requested address, which should arrive within 3-5 business days. For urgent kit requests, expedited shipping options are available.

PREPARING SAMPLE

Upon receiving the kit, place tube with media in the refrigerator until ready for use.

Specimen preparation: Collect 5 cubic millimeters of skin from a central location (e.g. buttock or upper thigh) rather than from a distal location (e.g. foot) to enhance cell viability. Place sample in a separate sterile container with RPMI media (included in the Baylor Genetics' CVS Transport Media Kit). In the absence of RPMI media, place sample along with a small amount of sterile saline in a sterile container with a cap that can be tightened to prevent leakage. Never place samples in formalin or other fixative.

Storage/transport temperature: Ship at room temperature in an insulated container by overnight courier. Do NOT heat or freeze.

Stability: Sample must arrive at culture lab within 48 hrs. of collection.

For questions related to tissue culturing, please contact Baylor Genetics' Client Services at 1-800-411-4363 or email help@baylorgenetics.com.

SHIPPING

1. Include completed Test Requisition Form with the CVS Transport Media Kit and provide FedEx tracking number.
2. Fax (800-893-0276) or email (support@tempus.com) completed Test Requisition Form to Tempus.
3. Ship sample to Baylor Genetics at 2450 Holcombe Blvd, Grand Blvd. Receiving Dock, Houston, TX 77021-2024.

Please note that fibroblast cultures typically take 2-3 weeks to complete.

If multiple skin biopsy specimens are collected, only one biopsy specimen will be cultured and sent to Ambry. If you require an exception to the standard specimen processing, please notify Baylor upon sample submission (additional charges may apply). Remaining cultures at Baylor Genetics will be discarded 14 days after sending initial 2 T25s to Ambry, unless additional cultures are requested prior to discard.

For questions related to acceptable specimens, test status, or results, please contact Tempus at support@tempus.com.
